

Q4 2023 Media Backgrounder

At Teradata, we believe that people thrive when empowered with trusted information. That's why we built the most complete cloud analytics and data platform for AI.

By delivering harmonized data, trusted AI, and faster innovation, we uplift and empower our customers—and our customers' customers—to make better, more confident decisions. The world's top companies across every major industry trust Teradata to improve business performance, enrich customer experiences, and fully integrate data across the enterprise.

Every day we drive positive impact for hundreds of millions of people around the world with faster, flexible data integration and trusted, cost-effective AI innovation.

Teradata is based in San Diego, California, with 7,000+ employees in 41 countries.

Executive leadership

- Steve McMillan, President and CEO
- Hillary Ashton, Chief Product Officer
- Claire Bramley, Chief Financial Officer
- Kathy Cullen-Cote, Chief People Officer
- Michael Hutchinson, Chief Customer Officer
- Richard Petley, Chief Revenue Officer

Teradata VantageCloud: The complete cloud analytics and data platform for AI

VantageCloud is the complete cloud analytics and data platform, delivering harmonized data and trusted AI/ML for all. VantageCloud gives organizations the tools and confidence to unlock the hidden insights in data, power infinite innovation, and reveal new opportunities.

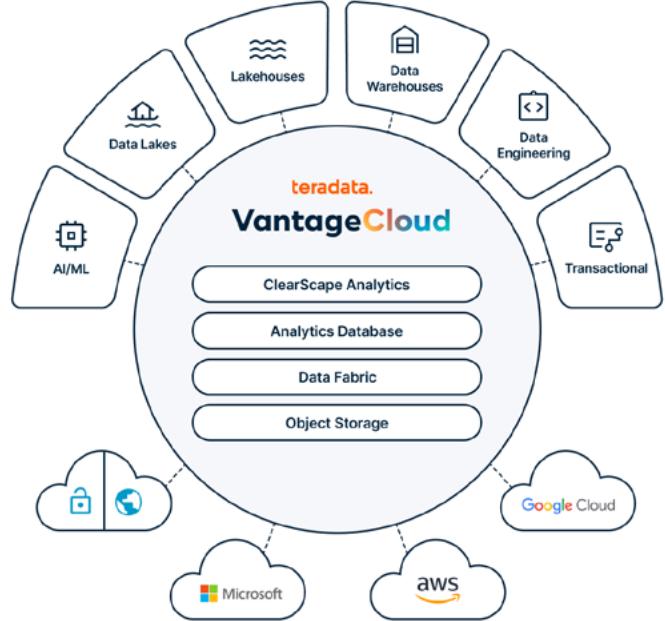

Figure 1. VantageCloud: One platform, unlimited possibilities

Teradata VantageCloud Lake: Innovate faster, scale smarter, govern better

VantageCloud Lake is a cloud-native, self-service offering that enables organizations to meet today's increasingly diverse analytics and data needs. Execute all workload types at scale, including AI/ML, decision support, data science, data engineering, transactional, and reporting.

With VantageCloud Lake, organizations can:

- Empower more users to improve performance and accelerate breakthroughs
- Optimize productivity to grow businesses more flexibly and sustainably
- Maintain oversight of harmonized data with the lowest total cost of ownership

VantageCloud Enterprise: Powerful performance everywhere

Organizations around the world use VantageCloud Enterprise to run the most critical, IT-managed enterprise workloads while getting the best price performance on the market.

VantageCloud Enterprise gives organizations the ability to:

- Automatically unify and harmonize data
- Discover insights that power breakthrough decisions faster than ever
- Empower users and drive innovation across the enterprise

ClearScape Analytics™: Better answers. Faster results.

With ClearScape Analytics, organizations can scale AI/ML quicker and more effectively to solve complex challenges, reduce cost and friction, and accelerate time to value throughout the organization.

ClearScape Analytics has the most powerful, open, and connected AI/ML capabilities on the market to deliver more breakthrough performance, value, and growth across the enterprise.

Teradata AI Unlimited: Drive faster, easier, and more cost-effective AI innovation

Teradata AI Unlimited is Teradata's on-demand AI/ML engine in the cloud that allows data scientists, data engineers, and developers to explore and discover innovative new use cases—on demand and using data at scale.

AI Unlimited brings the power of ClearScape Analytics to a low-cost environment that maximizes exploration and discovery. With high-performance, on-demand compute and in-engine analytics, AI Unlimited is a complete engine that features advanced AI/ML capabilities, giving organizations the ability to uncover valuable new use cases.

Recent news

Teradata announced that customers of ClearScape Analytics experienced increased profitability through a notable improvement in data scientist productivity, faster time to market, scaling of AI/ML model deployment, and more. Those were among the conclusions revealed in a Forrester Consulting Total Economic Impact™ (TEI) study commissioned by Teradata.

Recognition

Teradata is recognized by top IT analysts and other industry groups for leadership in cloud data management and analytics. Teradata received the highest score for Logical Data Warehouse and Traditional Data Warehouse™ use cases in the 2023 Gartner® Critical Capabilities for Cloud Database Management Systems for Analytical Use Cases. In addition, Teradata was recognized for its cloud vision and execution in the 2023 Gartner® Magic Quadrant™ for Cloud Database Management Systems.

In Q1 2024, Constellation Research named Teradata to its 2024 Constellation ShortList™. The ShortList recognizes Teradata in two areas: Next-generation databases: Relational database management systems (RDBMS) for on premises; Hybrid-cloud and multi-cloud analytical data platforms. Teradata has also been named one of the 2024 World's Most Ethical Companies® by Ethisphere—for the fifteenth consecutive year.
